

The Energy Star Program is sponsored by the U.S. Environmental Protection Agency and the U.S. Department of Energy. ENERGY STAR is a U.S. registered mark.

Eased a weary body.

Lulled a crying baby.

Soothed an aching back.

Helped save the planet.

It's a rare occasion indeed when a piece of furniture plays an important role outside your home. When you choose ENERGY STAR-labeled light fixtures, your home is beautifully lit while our environment is carefully preserved. ENERGY STAR-labeled torchiere lights come in a range of styles that complement both your home and your budget. The high-quality lights cost two-thirds less to operate and last up to ten times longer than standard lighting.

Look for the ENERGY STAR label, the symbol for energy efficiency. You save money because you save energy. And that helps save our planet.
